TITLE	CITATION	WEBLINK	DESCRIPTION
Advanced Magnesium Technologies - New Technologies	<i>Corporate Website</i>	[Launch Site]	Advanced Magnesium Technologies (AMT) develops and brings to market a broad range of technologies that widens the scope of applications for magnesium alloys and assists manufacturing processes. AMT has a global applications team, key development and production alliances, and a portfolio of patented alloys and technologies.
AMACOR (Advanced Magnesium Alloys Corporation)	<i>Corporate Website</i>	[Launch Site]	Largest magnesium recycling facility in world, supplying AM60B, AM50A and AZ91D to diecasters. The annual production capacity of the plant is approximately 30,000 MT.
Antheus Magnesium BV	<i>Corporate Website</i>	[Launch Site]	Antheus Magnesium BV based in Groningen, the Netherlands, aims to establish a magnesium metal production facility in the Delfzijl region. The proposed facility would include primary magnesium production, die-casting and magnesium recycling facilities.
Australian Ethanol Limited, TasMag Project	<i>Corporate Website</i>	[Launch Site]	Brief history and status report of the company's magnesium manufacturing operation.
AVISMA	<i>Corporate Website</i>	[Launch Site]	AVISMA is a leading Russian producer of pure and alloyed magnesium. AVISMA produces about 26 thousand tons per year. Pure and alloyed magnesium produced at AVISMA is supplied for the manufacturing of car parts, cell phone housings, portable computers, articles and parts of airspace vehicles, and to aluminum industry as alloying agent and to ferrous metallurgy.
Dead Sea Magnesium, Ltd	<i>Corporate Website</i>	[Launch Site]	Dead Sea Magnesium facilities are located on the south shore of the Dead Sea in Israel. Present installed production capacity is 35,000 tons per year. Site lists the magnesium products made, including pure ingots, pure T-bar, commercial alloys, patented alloys and alloys for cathodic protection.

TITLE	CITATION	WEBLINK	DESCRIPTION
Huachang Magnesium	<i>Corporate Website</i>	[Launch Site]	Provides product information and corporate news on this Chinese magnesium alloy manufacturer. Its main products are magnesium ingot and magnesium alloy ingot.
Hydro Magnesium	<i>Corporate Website</i>	[Launch Site]	Hydro Magnesium is a provider of solutions to the magnesium industry and a large producer of magnesium products. This site provides a comprehensive corporate overview, as well as updates on related magnesium research and development. The "services" section of the site offers a publication area containing conference paper abstracts, "Die Caster Bulletins" which are technical publications dedicated to a particular magnesium issue, and a number of informational brochures on such topics as safety and corrosion.
Magcorp	<i>Corporate Website</i>	[Launch Site]	MagCorp has produced magnesium metal products since 1972. Site lists the magnesium anodes which are available.
Magnesium Elektron	<i>Corporate Website</i>	[Launch Site]	Magnesium Elektron is a dedicated service organisation specialising in the development, manufacture and supply of magnesium products and services to technology industries worldwide. This site not only provides an overview of corporate products and services, but also offers general information on magnesium, its production and applications.
Magnesium International Limited	<i>Corporate Website</i>	[Launch Site]	Magnesium International Limited is the exclusive global licensee of Dow electrolytic smelting technology for the production of magnesium metal and magnesium metal alloys. This site provides general corporate information as well as an overview of the company's projects.
Nanjing Welbow Metals Co., Ltd. (RSM)	<i>Corporate Website</i>	[Launch Site]	Manufactures alkaline metals and its alloys including Magnesium alloys.
Ningxia Hui-Ye Magnesium Marketing Co., Ltd.	<i>Corporate Website</i>	[Launch Site]	Leading Magnesium and Ferrosilicon manufacturer in Ningxia Hui Autonomous Region.

TITLE	CITATION	WEBLINK	DESCRIPTION
POSCO	<i>Corporate Website</i>	[Launch Site]	Korean steel making company, now involved in magnesium.
Quay Magnesium Limited	<i>Corporate Website</i>	[Launch Site]	Provides product and corporate information for Quay Magnesium Limited. an Australian owned publicly listed company with its alloying production plant in Nanjing, China. Quay produces a range of high performance magnesium alloys that are targeted for use in the automotive and electronics industries.
Rima Industrial S/A	<i>Corporate Website</i>	[Launch Site]	RIMA is the only primary producer of magnesium in South America. This site provides an overview of its magnesium products, as well as other corporate information.
Salzgitter Magnesium-Technologie GmbH	<i>Corporate Website</i>	[Launch Site]	Salzgitter Magnesium-Technologie GmbH in Germany concentrates on the development, production, processing and trading of new, high quality magnesium flat rolled products. This site provides corporate information, as well as an overview of products and services, ranging from product development to series applications.
Solikamsk Magnesium Works	<i>Corporate Website</i>	[Launch Site]	General overview of plant magnesium production.
Solimag JSC	<i>Corporate Website</i>	[Launch Site]	Largest magnesium metal trader in Russia. Sells primary magnesium Mg-90.
Taiyuan Tongxiang Magnesium Metal Co., Ltd	<i>Corporate Website</i>	[Launch Site]	Provides brief company overview, contact information and product description for this Chinese magnesium metal manufacturer.
ThyssenKrupp Steel	<i>Corporate Website</i>	[Launch Site]	Research in developing processes for the commercial production of magnesium sheet.

TITLE	CITATION	WEBLINK	DESCRIPTION
Timminco	<i>Corporate Website</i>	[Launch Site]	Timminco Limited produces and markets specialty magnesium, and engineered magnesium extrusions, silicon metal and specialty ferrosilicon, calcium and strontium alloys. Timminco's products are used in a broad range of specialized industrial applications in industries such as aluminum, chemical, pharmaceutical, electronics and automotive.
U S Magnesium LLC	<i>Corporate Website</i>	[Launch Site]	US Magnesium is a dedicated service organization specializing in the manufacture and supply of magnesium ingot products, magnesium recycling services, chemical by-products, and energy. US Magnesium is the only producer of primary magnesium in the United States, operating manufacturing facilities on the Great Salt Lake.
UBE Machinery Corporation, Ltd	<i>Corporate Website</i>	[Launch Site]	Product lines include machinery (like hot chamber machines for magnesium) and magnesia-related products.
Xinxiang Jiuli Magnesium Company	<i>Corporate Website</i>	[Launch Site]	Provides product and contact information. This manufacturer produces high purity magnesium ingots, high purity magnesium alloys, magnesium sacrificial anodes, and squeeze magnesium metal rods.
MORE PRODUCERS	<i>Association Directory</i>	[Launch Site]	See list of IMA members.
