

THE WORLD COMES HERE.
TMS 2025
154th Annual Meeting & Exhibition

March 23–27, 2025
MGM Grand Las Vegas
Hotel & Casino
Las Vegas, Nevada, USA
#TMSAnnualMeeting

SUBMIT AN ABSTRACT FOR THE FOLLOWING TMS2025 SYMPOSIUM:

BIOMATERIALS

Porous Materials for Biomedical Applications

With the unique structural characteristics and tunable properties, porous materials play an important role in Biomedical Applications. This symposium will focus on various biomedical applications of porous materials. It will bring together scientists, engineers, and professionals from various fields to share their ideas and challenges and the solutions related to the development of porous materials and their subsequent applications in biomedical area.

Following research areas will be of key importance in this symposium.

- Biosensing and Diagnostics
- Drug Delivery Systems
- Tissue Engineering and Regenerative Medicine
- Theranostic Platforms
- Biocompatible Coatings and Implants
- Antimicrobial Applications

ORGANIZERS

Usman Liaqat, National University of Sciences and Technology; **Waheed Miran**, National University of Sciences and Technology; **Khurram Yaqoob**, National University of Sciences and Technology; **Xizi Long**, University of South China

SYMPOSIUM SPONSORS

TMS Functional Materials Division, TMS Biomaterials Committee
