SUBMIT AN ABSTRACT FOR THE FOLLOWING TMS2025 SYMPOSIUM:

ALUMINUM ALLOYS

Aluminum Alloy Development and Manufacturing Supplier Forum

Join your colleagues and suppliers to the aluminum alloys industry at this special supplier forum at the TMS 2025 Annual Meeting & Exhibition.

This session will provide an opportunity for equipment suppliers to present their current technologies and offerings, with a focus on recent innovations related to aluminum alloys: development and manufacturing.

Areas to be covered will include: all aspects of the necessary equipment for physical and mechanical metallurgy of aluminum alloys development and manufacturing, as well as analytical equipment for product development, testing and characterization of aluminum alloys for their implementation, and end-use applications. This will include equipment for application in transportation (automotive, aerospace, and marine), packaging, and equipment for other key product segments.

Who will participate: This call for presentations is addressed to suppliers of production and analytical equipment, managers, supervisors, technical personnel, and others involved in the aluminum alloy development and manufacturing sectors.

How you can participate: Submit a title and abstract (150 words or less) for your presentation via the TMS2025 website. Note that manuscripts are not required, but Supplier Forum presenters are expected to provide their presentation slides or PDF to be shared with attendees.

ORGANIZERS

Mihaiela Minea Isac, McGill Metals Processing Centre
Les Edwards, Rain Carbon, Inc.
