SUBMIT AN ABSTRACT FOR THE FOLLOWING TMS2025 SYMPOSIUM:

ELECTRODE TECHNOLOGY

Electrode Technology Symposium Supplier Forum

Join your colleagues and suppliers to the electrode technology industry at this special supplier forum at the TMS 2025 Annual Meeting & Exhibition.

This session will provide an opportunity for anode and cathode equipment suppliers to present their current technologies and offerings to the industrial aluminum manufacturing base, with a focus on recent innovations.

Areas to be covered include: green anode, baking and rodding room equipment, baking furnace refractories, cathode materials and refractories, quality measurement systems, automation and control systems and other relevant areas related to anode and cathode production.

Who will attend: The audience will consist of, but not be limited to, carbon and potroom supervisors, managers, and technical personnel and others from the aluminum industry.

How you can participate: Submit a title and abstract (150 words or less) for your presentation via the TMS2025 website. Note that manuscripts are not required, but Supplier Forum presenters are expected to provide their presentation slides or PDF to be shared with attendees.

ORGANIZERS

Egil Skybakmoen, SINTEF Industry
Les Edwards, Rain Carbon, Inc.
